Zip Captions Revolutionizes Accessibility with AI-Powered Live Captions

AI captions will complement our existing totally free live captioning solutions.

FOR IMMEDIATE RELEASE - Montreal, Quebec, February 2025.

Zip Captions, a leading free live captioning solution, today announced the launch of its new AI-powered captioning feature, powered by Microsoft Azure. This significant upgrade will provide Patreon supporters with significantly more accurate live captions, resulting in a more seamless and comprehensible experience for individuals with hearing loss, ADHD, Auditory Processing disorders, ANSD, and more.

"We are thrilled to bring the power of Microsoft Azure's advanced AI speech recognition to our users," said Chris Webb, Co-Founder and CEO at Zip Captions. "Our Patreon community directly enables us to bring cutting-edge technology to live captioning, ensuring a sustainable and continuously improving service. With today's launch, users can experience significantly reduced errors and improved comprehension, even in noisy environments or when captioning with complex speech patterns." Further enhancing accessibility, Zip Captions now includes robust dialect support for all users, ensuring clear and accurate captions for users with diverse speech patterns.

Zip Captions was born from a desire to make a High School Classroom more accessible for students with hearing loss. Chris, a High School Teacher, and James, a former teacher and full-stack web developer, joined forces to build Zip Captions. The project is open source and is now in use by over 1800 people around the world. To support the ongoing costs of leveraging Azure's powerful AI, this feature is available automatically to our valued Patreon supporters, and by request for educators, non-profits, and others.

Key Features:

- **AI-Powered Accuracy:** Patreon supporters gain access to significantly more accurate live captions, powered by Microsoft Azure's advanced AI speech recognition.
- **Enhanced Comprehension:** Experience significantly reduced errors and improved comprehension, even in challenging environments.
- **Dialect Support:** Robust dialect support ensures clear and accurate captions for users with diverse speech patterns.
- **Free Core Functionality:** Zip Captions remains a free, open-source solution for live captioning needs.

For further information please do not hesitate to contact us, to visit our website at <https://zipcaptions.app> or to follow the project on Patreon at <https://patreon.com/zipcaptions>.

About Zip Captions:

Zip Captions is a free and open-source live captioning solution designed to improve accessibility for individuals with hearing loss, ADHD, and other auditory processing challenges. Founded by a High School Teacher and a full-stack web developer, Zip Captions is committed to providing reliable and accurate captioning for everyone.
