EDUCATION PRINTABLE DESK REFERENCE

Student Desk Reference Card: Live Captions & Reading Tools

Keep this guide at your desk to connect to classroom captions and customize your reading view.

You can customize how live captions look on your own screen without changing anyone else's display in the classroom.

My Classroom Broadcast Code

Write Broadcast Room Code above or visit zipcaptions.app

How to Customize Your Reading View at Your Desk

1	Font Choice: Select the Lexend font in Settings to reduce visual crowding and make letters easier to distinguish.
2	High-Contrast Colors: Switch between dark mode and light mode to reduce glare from classroom lights.
3	Floating Window: Click Picture-in-Picture (or use the Zip Panel extension) so captions stay visible while you type in Google Docs.
4	On-Device Translation: In Google Chrome, select your preferred language to translate captions locally on your device.

Student Privacy

* No student login or email address is required to use Zip Captions.
* Transcripts remain in your local browser memory and are cleared when you close the tab.
