ON AIR

ON AIR: LIVE AUTOMATED CAPTIONS ACTIVE

This broadcast uses Zip Captions to deliver real-time captions to our viewers. Please keep these microphone habits in mind while on air.

4 MICROPHONE TIPS FOR HOSTS, COMMENTATORS & GUESTS

STAY ON-AXIS

Keep a consistent distance (about a fist's width) from your broadcast microphone.

AVOID CROSSTALK

Try to speak one person at a time during fast commentary or panel segments so every voice is transcribed cleanly.

USE YOUR COUGH / MUTE SWITCH

Mute your microphone when clearing your throat, shuffling papers, or speaking off-air to the producer.

INTRODUCE NAMES CLEARLY

State guest names and team or topic terms clearly at the start of each segment.

STUDIO / PRODUCER CAPTION MONITOR CODE

`https://zipcaptions.app/stream/...`

Live captions are being sent in real time to our stream output (OBS Studio / vMix / Twitch).
