LIVE EVENT PRODUCTION CHECKLIST

CC Zip Captions

Stage Manager & AV Crew Live Captioning Checklist

Pre-show technical verification for auditoriums, breakout rooms, and hybrid streams.

SIGNAL & WORKFLOW CHAIN

1. Post-Fader Aux Bus --> 2. USB Audio Interface --> 3. zipcaptions.app --> 4. Stage / Stream / QR

PRE-SHOW TECHNICAL VERIFICATION

- [ ] **Clean Speech Bus:**
  Route podium, wireless lapel, and Q&A handheld mics to a dedicated post-fader aux send (excluding walk-in music and video playback).
- [ ] **Audio Interface Check:**
  Connect the mixer aux send into the captioning laptop via USB Sound Card or audio interface and confirm healthy input levels.
- [ ] **Start Broadcast Relay:**
  Open https://zipcaptions.app, start the room broadcast code, and test scanning the printed door posters on a mobile phone.
- [ ] **Stage Monitor / Projector Feed:**
  Position the confidence monitor or side screen in high-contrast dark mode with large typography readable from the back row.
- [ ] **Stream Integration:**
  If streaming, connect OBS Studio via WebSockets or vMix via the Zip Captions vMix Extension over LAN/localhost.
- [ ] **Stream Deck Automation:**
  Configure Bitfocus Companion with the Zip Captions Companion module so the A1/V1 operator can toggle captions with one button.

NEED FULL-SERVICE EVENT PRODUCTION OR SCRIPTED SURTITLES?

Zip Solutions provides on-site and remote technical production and theatre surtitling: https://zipsolutions.org/live-event-quotes.
