HEALTHCARE STAFF REFERENCE SHEET

CC Zip Captions

1-Page Clinic Staff Guide: Using Zip Captions with Patients

Quick instructions for reception desks, pharmacy counters, audiology clinics, and consultation rooms.

SIGNAL & WORKFLOW CHAIN

1. Desk USB Mic --> 2. zipcaptions.app --> 3. High-Contrast Text --> 4. Clear Tab on Exit

4-STEP ROUTINE FOR CLINIC & RECEPTION STAFF

- [ ] **Open the Browser:**
  Go to https://zipcaptions.app in Google Chrome, Edge, or Safari on your desk computer or clinic tablet.

- [ ] **Position the Microphone:**
  Use a directional USB desk microphone pointed toward the staff member speaking so background waiting-room noise is minimized.

- [ ] **Set High-Contrast Large Text:**
  Increase the font size slider and turn on high-contrast mode so the patient can read comfortably without leaning in.

- [ ] **Clear the Screen After the Visit:**
  Click Clear or close the browser tab as soon as the patient interaction finishes so the next patient sees a blank screen.

BEST PRACTICES FOR SPEAKING CLEARLY

Speak at a natural, steady pace facing the patient so they can see both your facial expressions and the captions.

Spell out unusual medication names or appointment dates if background noise interferes with a word.
