MUNICIPAL CLERK & COMMUNITY MEDIA GUIDE

CC Zip Captions

Town Hall Setup & Transcript Export Guide (.SRT / .VTT / .TXT)

How to display live captions during public meetings and export transcripts for municipal records.

SIGNAL & WORKFLOW CHAIN

1. Chamber PA Mixer --> 2. zipcaptions.app --> 3. Room TV & Stream --> 4. Export .TXT / .SRT

MEETING SETUP & POST-MEETING ARCHIVING

- [ ] **In-Room Display:** Connect a laptop to the council chamber or senior center TV/projector and open https://zipcaptions.app in full-screen high-contrast mode.
- [ ] **Audio Connection:** Feed the room PA mixer output into the laptop via a USB Sound Card so all council microphones are captured cleanly.
- [ ] **Public-Access Cable & YouTube Live:** If broadcasting via OBS Studio or vMix, connect Zip Captions directly via WebSockets or the vMix Extension.
- [ ] **Export Plain Text (.TXT) for Meeting Notes:** Before closing the browser tab at the end of the meeting, click Export and choose Plain Text (.txt) to assist the clerk with drafting meeting minutes.
- [ ] **Export Time-Coded Subtitles (.SRT / .VTT):** Click Export and download SRT or WebVTT files to upload directly alongside your recorded town hall video archive.

DATA GOVERNANCE & LOCAL PRIVACY

Transcripts are held solely in local browser memory during the session and are not stored on external cloud servers.

Always download your exported files before closing or refreshing the browser tab.
